Procedure - Community Co-ordinators and Senior Residents

In general, the Pastoral Team will be the first to be aware of situations where there is concern for the health, well-being and safety of a Resident in the College.

1.1 Privacy and Confidentiality

- a. A member of the Pastoral Team should never agree to a Resident's request that they keep information about a serious matter or a Resident's serious harmful behaviour (towards themselves or others) secret or confidential. It needs to be clear to Residents that the Pastoral Team have a responsibility to speak with the Deputy Head of College so they can arrange appropriate help and/or safety for Residents and to also report serious matter incidents to the Deputy Head of College, to ensure that the situation is responded to appropriately.
- b. The Pastoral Team is expected to discuss all concerns about serious matters or potential concerns about allegations of substance abuse with the Deputy Head of College, as soon as practically possible.
- c. Discussions between staff and members of the Pastoral Team do not represent a breach of privacy legislation, where the focus is on the wellbeing and safety of the community or individuals in the College. However, members of the Pastoral Team should refrain from discussing a serious matter with other Residents (including other SRs), unless essential to assist in responding to a particular situation and with the approval of the Deputy Head of College.
- d. Respect for privacy is demonstrated by refraining from unnecessary or extensive disclosures of personal information or speculations about individual's motivations / behaviour etc or 'gossip'.

1.2 Reporting Mechanisms

- a. The College maintains a secure and confidential system for reporting serious matters. Whilst all serious matters must be reported via this secure system, the College may also identify additional occurrences that are to be reported via this system.
- b. The College will provide training to staff and the Pastoral Team as to which issues should be reported via this secure reporting process, and in how to write an incident report.

1.3 Responding to Serious Matters

- a. All members of the Pastoral Team must complete College and ANU training on:
 - i) How to respond to serious incidents and the expected reporting processes,
 - ii) In the appropriate use and involvement of emergency services and the College Emergency Response Protocol.
- b. The members of the Pastoral Team have limited responsibility in the management of serious matters, with the focus being on responding appropriately when they first become aware of the incident, and then referring the matter onwards.
- c. The members of the Pastoral Team must, through the appropriate channels and in a timely fashion, report and seek support in responding to all serious matters. They should also, if needed, seek to debrief after the event with appropriate College or university staff members.
- d. In responding to an incident the safety of each member of the Pastoral Team is a primary concern.
 - i) They are expected to consider their own safety in any actions they take around serious matters e.g. not being alone with a person who may be dangerous, not driving a person who is very ill to hospital on their own, etc,
 - ii) They should never hesitate to contact an appropriate staff member (e.g. on-call person) to seek guidance in responding to an issue, including determining whether an issue is a serious matter.
